

Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently amended) A cargo bucket system comprising:
a frame hingedly attached to [[the]] rear corner posts of a vehicle;
a cargo bucket pivotally attached to said frame;
a locking mechanism for securing said frame in an upright position to said rear corner posts; and,
a handle for pivoting said cargo bucket.
2. (Original) The cargo bucket system of claim 1 further comprising:
a pivot bolt attaching said cargo bucket to said frame; and
spacers between said frame and said cargo bucket.
3. (Original) The cargo bucket system of claim 2 wherein said spacers include ball bearings.
4. (Currently amended) A cargo bucket system comprising:
a frame hingedly attached to rear corner posts of a vehicle;
a cargo bucket pivotally attached to said frame;
a locking mechanism for securing said frame in an upright position to said rear corner posts;
a handle for pivoting said cargo bucket;
a pivot bolt attaching said cargo bucket to said frame;

spacers between said frame and said cargo bucket;

~~The cargo bucket system of claim 2~~ wherein said handle includes a bucket lock mechanism for locking said cargo bucket in various positions.

5. (Canceled)

6. (Previously presented) The cargo bucket system of claim 2 wherein said frame is adjustable.

7. (Currently amended) A cargo bucket system comprising:
a frame hingedly attached to rear corner posts of a vehicle;
a cargo bucket pivotally attached to said frame;
a locking mechanism for securing said frame in an upright position to said rear corner posts;

a handle for pivoting said cargo bucket;
a pivot bolt attaching said cargo bucket to said frame;
spacers between said frame and said cargo bucket;
wherein said frame is adjustable; and

~~The cargo bucket system of claim 6~~ wherein said adjustable frame includes a right bar, a left bar, and an adjusting rod.

8. (Original) The cargo bucket system of claim 6 further including a load support bracket for supporting said cargo bucket.

9. (Original) The cargo bucket system of claim 8 wherein said load support bracket is detachable.

10. (Currently amended) A cargo bucket system comprising:

a frame hingedly attached to rear corner posts of a vehicle;
a cargo bucket pivotally attached to said frame;
a locking mechanism for securing said frame in an upright position to said rear corner
posts;

a handle for pivoting said cargo bucket;
a pivot bolt attaching said cargo bucket to said frame;
spacers between said frame and said cargo bucket; and
wherein said frame is adjustable.

~~The cargo bucket system of claim 6 wherein said spacers include gears for reducing the
amount of force required to pivot said cargo bucket.~~
